

SPANISH PROFESSIONALS TENNIS COACHING ASSOCIATION

To Whom it may Concern,

Spanish tennis has dominated the word game for the past 25 years and continues to boast the World's number one player. The success of tennis in our country and internationally is aligned to the introduction, development and influence of the International Coaches Institute and the Registro Profesional de Tenis which was formed 25 years ago and has been a leader and at the forefront of tennis in Spain over this period

The expansion of the ICI internationally covering more than 120 countries confirms its credibility and the respect that it holds in the tennis world. The new programmes being proposed by the ICI will take their programmes, recognition and sphere of influence to a new level.

The Spanish Professional Tennis Coaches Association have voted to accredit and sanction the ICI Competition Coach Course and the Performance Coach Course and confirm that it will accept and recognise coaches in good standing that hold the ICI qualification

Yours faithfully,

Francisco Vicent
President
APE Tenis España
